SKILLS & TOOLS

Programming	Python • SQL • Git • Unix • JavaScript/HTML/CSS
Soft Skills	Stakeholder Management • Communication • Presenting • Mentoring
AI Engineering	Claude • Cursor Composer • Langgraph • MCP • Agents • Agent Tools • LLMs Prompt Engineering • Generative AI • AI/Agent Evaluation • Fine-Tuning
Data Science	Machine Learning • Forecasting • Statistics/Experimentation • Data Modeling Pandas • Seaborn • Scikit-Learn • AWS Sagemaker • Streamlit • Tableau • Excel

WORK EXPERIENCE

Senior Product Scientist – Finance | Indeed

Apr 2024 – Present

- Prototyped Indeed's Text-to-SQL Chatbot using OpenAI in Jan 2023, enabling non-technical users to query data and standardizing complex business rules across orgs. Led system design, development, and product demos. Scaled the project to a team of 6, supporting 2000+ WAUs, including senior leadership.
- Developed Deep Learning DeepAR models to predict advertiser LTV with high accuracy, driving a \$100M+ targeted marketing strategy which ultimately boosted revenue by 16% and profitability by 9% for Indeed's main product.
- Recognized with High Performance Award in 2023-2024 (awarded by SLT), where I consistently (and still) receive the highest ratings on performance and impact

Senior Business Intelligence Analyst – Finance | Indeed

Jan 2023 – Apr 2024

Previously: Business Intelligence Analyst

Oct 2021 – Jan 2023

- Built and deployed Revenue Forecasting ML Models (Best Performer was Prophet), achieving 1-3% MAPE (1-month) and ~5% MAPE (1-quarter) forecasts, to guide senior leadership (CEO, VPs) and Finance through COVID's volatile market
- Authored an internal self-service time-series forecasting application in Python, connected to AWS Sagemaker to support the full ML lifecycle with deployment and ML Pipelines and MLFlow for monitoring. Enabled 20+ teams across Product & Finance to build and manage 2000+ models. Handles hyper-parameter tuning, caching, and monitoring.
- Supported Revenue data-mart reliability (using Airflow, dbt, Snowflake) through data bug squashing, and fixing pipelines across Tableau, AWS Athena, and IQL (an query-language and database system) raising monthly SLA compliance from 60% to 95%.

Data Scientist | Rauxa (Publicis Groupe) Ad Agency

Mar 2020 – Oct 2021

- Led A/B Testing on Facebook Ads, increasing Conversions by 15% and reducing Cost-per-Conversion by 66% YoY for Piedmont Health.
- Modernized media data tech stack (Data Warehousing, ETLs), by integrating competitor web-scraping (Puppeteer) and 3rd party data sources (Web Scraping / Purchasing Data) for analytics
- Built 3 real-time Python web apps, using above data, to help secure five new large clients and won additional work with Verizon and Alaska Air generating \$1M+ more revenue for the company.
- Developed ML Churn models, Marketing Attribution models, Google Tag Manager integrations, and monitoring and communicating performance of Marketing Campaign KPIs for clients.

EDUCATION

University of California, San Diego

La Jolla, San Diego, CA

B.S. in Statistics & Probability, Minors in Comp Sci & Business
